Good morning, I'm the president of traditional bow archers in Italy: COMPAGNIA DEL BERNABO'

I'm writing because I'd like asking you some information:

I found the movie SHARK FISHING with HOWARD HILL made in 1936 .And I saw your name under the movie

I'd like to put it on our web site to promote traditional archery, bowfishing and to know to italian archers the great man who was HOWARD HILL. Our web site is: www.arciroidelbernabo.it it is in italian with something in english if you want to take a look.

I'd like to know if it is possible to put the movie on our web site, if the movie is under copyright and what we can do if it is under copyright.

Thanking you in advance for the assistance and waiting a reply,

Have a nice day

Alessandro Fodera

p.s.: sorry for my English.

You can embed our video on your website using the Youtube tools and are welcome to do so.

That's the only way to share this movie on your site. If you download and re-post it, that would violate our rights and we would file a copyright claim against your organization.

Thank you.
